REC'D 28 JUL 1910

Sir!

In compliance with your request expressed in the
Classification letter on the S.S. Birkenfeld Report No. 1580
I beg to confirm that the pitch of the 18 rivets in the treble rivetted
shell bulk is 3 1/8", the thickness of the inside straps on K strake
is .52" and the test of the 5" steel steam wire is 59 tons.
Kindly correct these misstatements in my Report.

I remain Sir
Your obedient Servant
