LONDON

Reference

Dear Sir,

I am in receipt of a letter from Messrs. Howaldts-
werke A.G., Kiel, stating that they are experiencing diffi-
culties in obtaining the increased profiles for the longitu-
dinal frames in the fuel oil bunker of their Yard № 756 in
time and for this reason they propose to arrange a web frame
in way of the wall of the transverse bunker, i.e. 76 mm
abaft frame 38. In submitting this proposal the Builders
trust that the profiles originally proposed can be retained
as the spacing is no longer increasing.

Duplicate copies of a part plan showing the
shell expansion in way of the fuel oil bunker and the
web frame which it is now proposed to be fitted are being
submitted under separate cover for the approval of the
Committee.

I am, Dear Sir,
Yours faithfully
for A. Chisholm

The Secretary,

LONDON
