Received from Chief Ship Surveyor _____

VESSEL'S NAME Steel S.S. "QUEENSBURY"

Rpt.

Lth.

No. 17936

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/32).

Nature of Survey _____

This vessel was classed in October last.

The General Committee decided on the 4th December to defer recording the date of build until the trial trip had been run, the main and auxiliary machinery tested and the windlass, cables and anchors tried.

The Leith Surveyors now forward a report stating that the trials have been completed.

It is submitted the vessel appears worthy to remain as classed with record of survey.
