

11210-0010 1/2

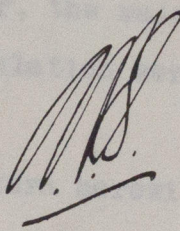

S.S. "QUEENSBURY".  
-----

The General Committee decided on the 4th December last to defer recording the date of build until the trial trip had been run, the main and auxiliary machinery tested, and the windlass, cables and anchors tried.

A letter has now been received from the Society's Surveyors at Leith stating that these trials took place on the 7th instant, when everything was found satisfactory.

It is therefore submitted that the date of build "January 1931" might now be recorded, and new certificates issued bearing this date.

It is further submitted the Leith ~~Surveyors~~ Surveyors be requested to forward the official Reports in the usual manner.
