GLASGOW

5th January, 1944.

Dear Sir,

In consequence of today's telephone conversation in regard to the steel plates supplied to Swedish Shipyards by Messrs. Fabrique de Fer of Charleroi, Belgium, and which have a tensile strength inferior to that permitted by the Society's Rules, I confirm my agreement to the use of this steel especially as it is proposed to provide structural compensation for the deficiency in tensile strength.

I am, Dear Sir,
Yours faithfully,

W. B. H.

Louis Ripley, Esq.,

MIDDLESBROUGH.
