

Messrs. A/B Lindholmens Varv, Yard No. 964.

Plans of masts, in duplicate, submitted by the
Dusseldorf Surveyors and of masts and rigging, in triplicate,
by the Gothenburg Surveyors.

It is submitted the Surveyors be informed that
the scantlings and arrangements as shewn and amended will be
approved, provided they be carried out to their satisfaction.

They should be further informed that the Rules
do not provide scantlings for derrick posts and the
scantlings of masts and rigging as detailed in the Rules
are considered suitable for the support of an average
equipment of derricks of normal outreach and the plan has been
dealt with on this basis. They should inform the Builders
accordingly and that the responsibility for the design of these
members suitable for the special conditions proposed must
rest between the Owners and the Builders.
