Messrs The Surveyors of Lloyd's Register
Sunderland

Dear Sirs

S/S No 388

We have your letter of 22nd inst & note
that the substitution of 2 - 100 fms 3" wire for
2 - 5" wire is not considered satisfactory.

sq lms It is the Owners' wish to make the
change from one rope to two & the size submitted
was suggested by them, but on looking up
the strengths of the two sizes we agree with your
decision.

Probably if 2 lengths of 120 fms each
3½" wire be substituted it will meet your &
the Owners Views. Please state if this is
satisfactory.

Yours Faithfully
For SHORT BROTHERS LIMITED
