

W213-0154

Belfast.

4<sup>th</sup> June 1909

S. O. Kendall

The Diver attended on board the Twin Screw Steamer  
"Robertson" (Messrs. Harland & Wolff's No. 390) while she  
was fitting out at the Victoria Wharf Belfast, on the  
13<sup>th</sup> day of May 1908 and other subsequent occasions, to  
inspect the side lights and gangway doors in the hull of  
the said vessel.

The whole of the side lights and gangway doors (from  
and out doors) from the lower bridge downwards on both  
sides of the vessel were tested by hose and found  
to be watertight and in good order.

S. O. Kendall;
