

Messrs. Furness S.B. Co's Yard Nos.283 and 300.

Electrical Installation.

Petroleum in Bulk.

The Sunderland Surveyors have submitted plans of the "Artic" gastight pump room fittings proposed to be used for lighting the pump rooms of the above vessels. The plans have been examined and in order to give them full consideration further details should be requested stating the method of fixing and sealing the 7" diameter prismatic ^{iron} glass in the cast/housing. The nature of the sealing compound should be stated.

IT IS SUBMITTED the Surveyors be informed accordingly.

Retain plans.
