

Messrs. Furness S.B. Co's Yard Nos.283 and 300.

Electrical Installation.

Petroleum in Bulk.

IT IS SUBMITTED the Sunderland Surveyors should be informed detailed plans of the ventilation and oil piping arrangements of the bridge space are to be submitted in order that full consideration can be given to the matter.

It should be pointed out it is a requirement of Section 15 of the Rules for Electrical Equipment that cables in tween deck spaces be led in gas tight tubing but provided the space be adequately ventilated and there are no glands or cargo oil pipes in this space, special consideration will be given to the Shipbuilders' request.
