Sunderland.

26th. November 1935

Messrs. Lloyd's Surveyors,
Sunderland.

Dear Sirs,

We enclose plan of the proposed new main exhaust heater for the M.V. "SILVERAY".

Will you please note it is intended to use in all existing fittings; also the new heater is the same as the original heater excepting that the thickness of the plating has been increased by 25%, and the design adapted to suit electric welding construction. We shall be glad to have your approval of this design as soon as possible as we have been requested by the Owners to have it ready to send away from here on Saturday, at latest.

Yours truly,

JOSEPH L. THOMPSON & SONS, LIMITED.
