LONDON

ENCLOSURES.

Dear Sir,

We are informed by Messrs. J. L. Thompson & Sons, Ltd., that it is proposed to close the tonnage opening in the Shelter Deck of the M. V. "SILVERAY" in order that the loaded draft may be increased. Plans, in duplicate, of the Midship Section and Profile are forwarded herewith and the builders will be glad if you will indicate on these plans the additional requirements and alterations which are considered necessary to allow the vessel to load to a draft of 26'-0" extreme.

They state that as the matter is urgent, they will be obliged if you will give it early attention.

We are, Dear Sir,

Yours faithfully,
THE SURVEYORS
PER:-

The Secretary,
LONDON.
