WEATHER STATEMENT

VOYAGE 24

NEW YORK TO CAPETOWN

1935

- 23rd Aug: Moderate wind & sea, long heavy swell. Rolling & pitching heavily. Engines racing, governor working.
- 24th Aug: Fresh gale, rough sea, high confused swell. V/1 rolling, labouring and pitching violently, heavy rain squalls at times, overcast, engines racing, governor working.
- 25th Aug: Strong westerly winds, rough sea, heavy confused swell, V/1 rolling, labouring & pitching violently, overcast, rainy weather. Engines racing, governor working.
- 26th Aug: Moderate winds, sea & swell. Rolling easily. Engines racing, governor acting occasionally. Water in fuel, Sharples purifier running 16½ hours instead of 12.
- 27th Aug: Water in fuel, purifier running 18 hours. No.4 port tank tested, 12" water & oil. Mod. winds, sea & swell. Rolling easily, engines racing, governor working occasionally each watch.
- 28th Aug: Large quantity of water in fuel oil, purifier running 19½ hours.
- 29th Aug: Water in fuel, purifier 18½ hours.
- 30th Aug: Water in fuel in large quantities, purifier running 19½ hours.
- 31st Aug: Main engine stopped, fuse on auxiliary lub. oil pump given out. Crankshaft fractured.
- 4th Sept: 7.50 p.m. Engines slowed down, water in fuel. Purifier running continuously. No.4 D.B. tank tested for water, 5" water, 6" contamination, port side.
- 5th Sept: 11.50 a.m. Engines slowed down & stopped, water in fuel. Generator slowed down. No.4 D.B. tank, cover changed over from "Fuel" to "Ballast" and water pumped overboard, 5". Cover then reversed & rejointed to "Fuel". Settling tank drained & examined. Internal pipe to purifier valve reversed. The latter was done in order that oil & not water was fed to the purifier, as the tank took so long to drain.
- 9th Sept: Fresh head wind, sea and swell. Pounding & pitching moderately. Engines racing, governor working. About 9" of water drained from settling tank each watch.
- 10th Sept: Fresh head wind, mod. head sea & swell, pitching and pounding moderately. Engines slowed down 3.50 p.m. Water in fuel.
- 11th Sept: Fresh head wind, mod. head sea & swell, pitching & pounding moderately. Engines racing, governor working.
- 12th Sept: Fresh head wind, mod. head sea & swell, pitching and pounding moderately. Engines racing, governor working. No.4 ~~port~~ Port & Star. tank drained.
- 19th Sept: Fresh wind, rough sea, heavy swell, rolling heavily, engines racing, governor working.
