Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

24th August, 1925.

Dear Sirs,

With reference to Sunderland Report No. 29100 on the Electric Fittings proposed for the M.V. "SILVERAY", I have to request that, in view of the adoption of varnished cambric as an insulating medium, a material not referred to in the Society's Rules, you will state whether there were any special reasons for the use of this material.

I shall be glad if you will forward samples of the cables together with particulars of any tests of the dielectric which may be available.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
SUNDERLAND.
