17th April, 1923.

Dear Mr. Turnbull,

As you are no doubt aware, the correction and printing of the new edition of the Register Book (which is to be published on the 1st July) is already in hand at the Society's Printing House.

The Steamer "CLARA", built at Monfalcone in November last still stands in the current Book as "100A1 Class Contemplated", the reason being that we have no advice of payment of the fees.

In the circumstances Mr. Ives suggests that I should write to you with a view to taking steps to ascertain whether the fees have already been received by the Registro Italiano, and if not, to ensure that they are paid at once so that the full particulars of classification may appear in the new Book.

I need not point out that it is very much to the advantage of the Owners that this should be done, and I shall be much obliged if you will kindly cable to this Office as soon as the money has been received. The sheet of the Book containing the particulars of the "CLARA" will have to be printed off in about 10 days' time.

With kindest regards,
Yours faithfully,

N. G. Turnbull, Esq.,
TRIESTE.
