Reference

S.

Dear Sir,

With reference to your letter of the 7th instant respecting the S/S Thode Fagelind (as well as the "Cubano" "Troubadour" and "Tugela") we beg to acquaint you that the owners now state that they will arrange for the examination of the couplings in question.

At the same time the superintendent states that the owners would appreciate very much if you could inform how many of the Bauer-Wach exhaust turbines, of which there have been defects in the cones of the thrust shafts, were made in Germany.

We are, Dear Sir,

Yours faithfully
