LLOYD'S REGISTER

Recd. 4 MAR. 1925

Ans'd.

342, Argyle Street, Glasgow.

LONDON

ENCLOSURES.

3rd March, 1925.

Sir,

With reference to Glasgow First Entry Reports No. 44462 being forwarded today on the Steamer "TIEN KWANG", I have to say that it is concluded that as in the case of the sister vessel "SHU KWANG" (Glasgow Report No. 43967) the fees will be collected by you from the Owners.

In this connection I have to draw your attention to the fact that a fee of £50:14/- has now been entered for the survey of the machinery as the nominal horse power, as you will recollect, was subsequently altered from 412 to 397.7.

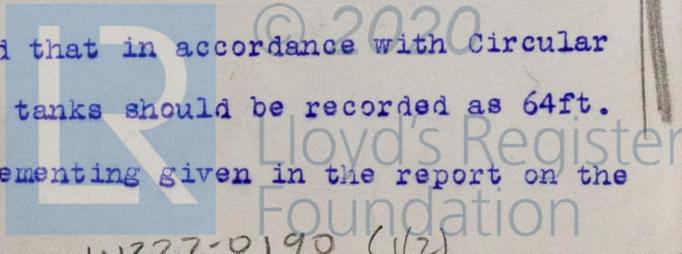

It is observed that in the case of the "SHU KWANG", the notation "Fitted for oil fuel 9,24 F.P. above 150°F" has not been entered in the Register Book and it is assumed that this is an omission.

I have also to draw your attention to the record of water ballast and to say that the particulars entered on the report of the "TIEN KWANG" should also have been given in the case of the "SHU KWANG" and that in accordance with Circular No. 1284 the length of the tanks should be recorded as 64ft.

The particulars of cementing given in the report on the

*g/ported*

*ship*

W227-0190 (1/2)

"TIEN KWANG" are also correct and apply to the sister ship and it is suggested that the record of "Cem" should therefore be deleted in the case of the "SHU KWANG".

I enclose fresh certificates for the boilers and return the originals for cancellation.

*rel' g's (signed)
