Enclosures.

21st January, 1937.

Dear Sirs,

E. I am in receipt of your letter of the 18th instant, forwarding plans, in duplicate, of riveted air receiver and seamless and welded air receiver, proposed by Messrs. Machinefabriek Gebr. Stork & Co. for Messrs. Nederlandsche Sheepsbouw Mij's Yard No.268, and I have to inform you that these plans will be approved for a working pressure of 25 Kgs. per square cm., provided the air receivers be constructed under the usual conditions of survey and testing.

In the case of the riveted air receiver, it is concluded that the inside diameter of the outer strake of shell plating will be 1600 mm., but I shall be glad if you will kindly confirm this.

One copy of each plan is returned herewith.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
AMSTERDAM.
