

S.S. "TREFUSIS" ex "WAR ACONITE"

This vessel is of the Standard "A" Type, and was built by Messrs. W. Doxford & Sons in 1918 to British Corporation classification.

When taken over by the Hain Steamship Company in September 1919, the Owners requested that she be classed with Lloyd's Register.

The Steamer has now been surveyed at Newcastle, and a first Entry Report received from the Surveyors recommending the vessel be classed 100 A.1.

The Surveyors desire to be informed what fees should be charged in the case.

It is submitted a total fee of £120 be charged for the survey and classification of hull and machinery.

The statutory freeboard assignment fee should be charged in addition.
