

MEMORANDUM.

Messrs. Foster, Hain & Read telephoned from their London Office that they have bought the "WAR ACONITE", from the Shipping Controller, and they intend re-naming her "TREFUSIS". She was classed in the British Corporation, and they have asked the Surveyors at Newcastle where she is at present, to survey her with a view to her being classed in this Society.

They wish the usual letter to be addressed to the Board of Trade in connexion with the change of name, and they will be very much obliged if that can possibly be done to-day as the matter is urgent.
