

J. J. Wojoda Putnik

W228-0126

The arrangements desired have been discussed with Mr. Baug, the Owners representative and an outline plan has been prepared showing the plating of the lowest deck which could be approved.

If part of the half beams are removed in way of the hatchways as shown on the sketch, a built angle or channel fast bar should be fitted along the inner edge of the plating as indicated on the plan.

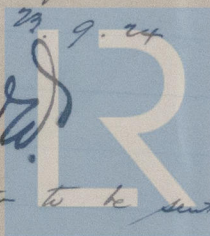

It is submitted copy of this plan be forwarded the Owners & the Genoa Surveyors, who should be also advised that if the arrangement as indicated above is carried out, the freeboards will not be affected thereby provided no tonnage opening is fitted.

J. J.

Ans. 74/9/24

The Owners desire communication to be sent by hand.
