30th April, 1924.

Dear Sirs,

S. I beg to acknowledge the receipt of your letter of the 29th instant with reference to the drawing in of the tail shaft of your steamer "VIKINGSTAR", and in reply I have to point out that this shaft became due for examination under the Society's Rules in March 1923 and that in view of the shaft not having been seen by the Society's Surveyors since the vessel was built more than four years ago, the Committee regret they are unable to concur in your proposal to send the vessel on another voyage before submitting the shaft for the necessary examination, as they consider this should be done before she again sails.

I am, Dear Sirs,

Yours faithfully,

Secretary.
