

s.s. "AARO", built by the A/S Helsingør Jernskibs og Maskin.
in 1925 - 10 mo; owned by A/S D/S Heimdal.

The Copenhagen Surveyors state this vessel has been laid up at Elsinore since she was built, and as she has never been put in commission they request the Committee's consent to have the date of build altered from 1925 - 9 mo. to 1926 - 7 mo. They state that she will be placed in dry dock for bottom examination and painting next week.

It is submitted this case is covered by Clause 7 of the General Regulations respecting classification, and the Surveyors should be advised that they are authorised to make an examination of the vessel in dry dock, and, if as a result of such survey the vessel as regards hull, engines, boilers and equipment (including boats) be reported in all respects free from deterioration, the periodical surveys may become due at periods of 4, 8 and 12 years respectively from the date of such examination.
