Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

23rd April, 1926.

Dear Sir,

With reference to Greenock Report No. 18509 on
S. Oil Engines K9 made by Messrs. John G. Kincaid & Co. Ltd.
for the Motorship "JAVA", I have to acquaint you that this
vessel has to-day been classed 100A1 "Carrying Molasses or
Petroleum in Bulk" with notations of Lloyd's A & CP and LMC
4,26 "Oil Engines" 2-DB 180 lbs.

I am, Dear Sir,

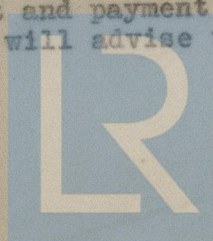

Yours faithfully,

Clerk to the
Classification Committee.

The Secretary,

GLASGOW.

P.S. I have to add that the Middlesbrough Surveyors state
the Builders are anxious to receive the First Entry
Certificates at the earliest possible moment, and in the
circumstances the Hull and Machinery Certificates have been
forwarded to that port. The Machinery Certificate will,
however, not be handed over until the Enginemakers have
sanctioned this arrangement and payment of the fees received,
and I shall be glad if you will advise the Middlesbrough Office
on these points
