Director

GLASGOW REPORT No 45550

Port MANCHESTER.

1st December, 1925.

This is to Certify that

the undersigned Surveyor to this Society did at the request of

Messrs. The Superheater Co. Ltd., Manchester,

attend their works on the 27th November, 1925, for the purpose of

inspecting 8 Steam Superheater Headers designated -----

Test No.s. 3520, 3547, 3542, 3526, 3531, 3536, 3494, and 3505.

made to the order of Messrs. D. & W. Henderson & Co. Ltd., Glasgow.

and intended for their Vessel No. 722.

The ~~wrought~~ ^{cast} steel headers in question were mechanically tested in accordance with the Rules of this Society. ~~A copy of the results of these tests is appended.~~

The headers were, in the presence of the undersigned, tested by hydraulic pressure to 600 pounds per square inch and found satisfactory.

The headers are, so far as can be seen, sound and free from defects, and are suitable for a working pressure of 200 pounds per square inch.

Identification Mark:—

No. s.	As above.
LLOYD'S TEST.	
Working Pressure	600 lbs.
Working Pressure	200 lbs.
with date & A.L.	

Geoffrey Lane
Engineer Surveyor to Lloyd's Register.

MANCHESTER.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood either the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
