21st August, 1933.

Dear Sirs,

E. I duly received your letter of the 12th instant respecting the independent fusing of alarm circuits proposed by Messrs. Metropolitan Vickers Electrical Co. Ltd. for the exhaust turbo electric propulsion scheme for the s.s. "CITY OF VENICE", and note you are now advised that Messrs. Workman Clark (1928) Ltd. are supplying the fuses at Belfast and that it will therefore not be possible to carry out the proposed tests at Manchester.

In the circumstances the Surveyors at Belfast are being advised in the matter and requested to give the case their attention.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

MANCHESTER.
