Received by Chief Ship Surveyor 5-6-15.

Received from Chief Ship Surveyor

VESSEL'S NAME Steel S.S. "CITY OF HANKOW" Rpt. Hpl. No. 15126

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

(The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement.—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

It is submitted before this case receives the consideration of the Committee the Newcastle Surveyors, to which port the vessel is proceeding, should be informed that in order to complete the first entry survey on this vessel 130 fathoms of 5 1/4" steel wire tow line requires to be supplied and the fly wheel hand pump to the bilges to be examined under working conditions from the after bilges, and they should be requested to give these matters attention on the vessel's arrival.

Mr. G. H. W. C.
