

Motor Vessel "SAGAMI", No. 90957 in the Register Book Supplement.  
-----

The date of build of this unclassified vessel appears in the Register Book as 1913.

In reply to an enquiry by the Barber Steamship Lines, Ltd., the Hamburg Surveyors have been communicated with and state that the vessel was launched on the 22nd January 1913, but that the official trial trip did not take place until March 1914, the vessel being taken over by her Owners on the 12th March 1914. The vessel then made a voyage to the United States and returned to Germany, where she remained until after the War.

It is submitted that in the circumstances the date of build might be <sup>altered to</sup> 1914 ~~1913~~.
