

Motorship "SAGAMI"

Sketch of cast steel motor seating submitted by  
the Builders direct.

This is a copy of a plan prepared by Sir Joseph  
Isherwood and forwarded by him to the Builders, *and has been discussed  
with his representative, Mr Burgess.*

It is submitted the Builders be informed that  
be carried out as  
provided the arrangements/as shown on the plan, and to the  
satisfaction of the Society's Surveyors, the same will  
merit approval.

With regard to the half depth intercostals in  
the double bottom, these should be fitted as previously  
required in order to afford the necessary local stiffening  
in way of the motor seating.

*The Builders might be informed by wire*
