

POSTPONED SURVEYS.

Case of the..... S.S. "DAHOMIAN".

22323..... in Reg. Bk. 5277 gross..... tons, Built 1929-6mo.

assessed..... Owners.....

Port of Registry.....

General Examination due 3.44.

(Annual Load Line Survey due 18.5.44)

Survey Due..... B.S. due 10.43 partly held, to complete, safety valves
require to be adjusted.

This vessel is at present on charter to the Union Castle
Steamship Co. Ltd., operating between North America and South
East Africa, and it is anticipated that she will reach a South
American port early next month. The Owners wrote in January last that
the survey and Load Line requirements would receive attention when
the vessel next returned to home waters, and in reply to further
enquiry they now state that they have received information that the
vessel is expected home by the end of June or early July adding that
this must not be considered definite as the vessel may be delayed by
intermediate cargo between ports.

*A. satisfactory examination was made in
dry dock in December 1943 at Hull.*

Submitted for favourable Consideration.

Committee's Minute..... FRI. 24 MAR 1944

Decision.....

Deferred
