

SUPERHEATER Endorsement.

Shipbuilders: Messrs. *Barclay, Curle & Co.* Yard No. *666*

Engineers: Messrs.

Engine No.

Superheater Makers: Messrs. *The Superheater Co. Ltd.*

*Amended*

It is submitted that the ~~plan~~<sup>amended</sup> of superheaters merits approval for a working pressure of *220* lb. per square inch, provided the steel castings be made at approved works and tested as required by the Rules, a safety valve be fitted to each part of the superheaters which can be isolated from the boilers, and the superheaters be constructed under the usual conditions of survey and testing; and the whole be tested to three times the working pressure.

*It is noted that there is a slight alteration in the number of elements and the diameter of the tubing from which they are being made and particulars of the proposed scantlings for the element tubing should be forwarded for consideration.*

~~Return plan~~

*Advise Manchester Surveyors & forward plan
