

Enclosure.

COPY

23rd March, 1944.

Dear Sir,

I enclose the deferred reports on the steamer "EMPIRE MOORHEN", from which you will observe that the centre furnace of the port boiler requires to be dealt with, the first reduction pinion and wheels renewed, and the remainder of the gearing and turbine bearing examined and the alignment checked, at a United States Port before the end of the present month.

No information has yet come to hand that this matter has received attention, and in the circumstances I shall be glad if you will get in touch with the Owners and let me know whether they are in a position to furnish any information on this point.

The enclosed documents should be returned with your reply.

I am, Dear Sir,  
Yours faithfully,

Clerk to the  
Classification Committee.

The Secretary,  
LIVERPOOL.
