

Lloyd's Register of Shipping,

Zgrada Trgovačke Komore,
Trumbićeva obala 4,

Split, 29th. July. 1936.
Jugoslavia.

Dear Sir,

I beg to acknowledge the receipt of your letter of the 8th. instant respecting the steamer "KUMANOVO", and in regard to the fresh certificates requested by the Owners, I would say that the matter of the endorsement of the vessel's class being subject to the rudder bottom arms and plate in way being faired at the first convenient opportunity was discussed with their representative who stated that it would be satisfactory.

With reference to my Report No.509 on the electric fittings, I have now verified the size of the main cable to the 30Kw. dynamo and it is as stated in the report. I have also verified the total load it is possible to put on the dynamo, and this is 220 Amperes under working conditions.

I am, Dear Sir,

Yours faithfully,

The Secretary,
LONDON.

Split, 29th July. 1936.
Jugoslavia.

Dear Sir,

I beg to acknowledge the receipt of your letter of the 8th. Instant respecting the steamer "KUMANOVO", and in regard to the fresh certificates requested by the Owners, I would say that the matter of the endorsement of the vessel's class being subject to the rubber bottom arms and plate in way being failed at the first convenient opportunity was discussed with their representative who stated that it would be satisfactory.

With reference to my Report No. 509 on the electric fittings, I have now verified the size of the main cable to the 30Kw. dynamo and it is as stated in the report. I have also verified the total load it is possible to put on the dynamo, and this is 250 Amperes under working conditions.

I am, Dear Sir,

Yours faithfully,
