LONDON

19th June 1930.

Reference

The Secretary,  
LONDON.

*Send in  
M. Dept  
257 6/30*

Eng. "KINGSWOOD" Engine No. 270.

Dear Sir,

*Plans*

I beg to submit for the consideration of the Committee letter and plans received from The Parsons Marine Steam Turbine Co. Ltd., having regard to the installation of an exhaust geared turbine in the above vessel.

It may be observed that as at present proposed the lubricating oil drain tank sits in the double bottom water ballast tank, there being no cofferdam; also no additional intercostals are proposed in way of the turbine.

I am, Dear Sir,

Yours faithfully,

8
