

is List. 6.3.37

**KINGSWOOD.** — Adelaide, Feb. 18.—It is understood that it has been decided to tow the British steamer Kingswood to England for permanent repairs. While the vessel was shifting berth during a stiff south-easterly breeze on Feb. 10 her propeller fouled a pile at the wharf, breaking the pile and also taking a tip off one of the propeller blades. (Note.—Kingswood had an explosion on Jan. 3 at Port Pirie.)
