

Annex. Report No. 12474

SPARE PARTS FOR MAIN ENGINES

M. V. Raja

- coupling belts for crankshaft
- crosshead brasses (complete) four halves
- head bolts with nuts and set pins
- crankpin brasses (complete) four halves
- main bearing belts with nuts and set pins
- two sets main bearing brasses (1 top and 1 bottom half)
- bolts for main bearing with nuts and set pins
- inlet valves complete with housing and spring
- exhaust valves
- inlet valves complete with housing and springs
- exhaust valves
- bolts for inlet valves
- inlet valves (complete) with housing and springs
- inlet air valves (complete) with housing and springs
- inlet air valves
- starting air valves
- spring for each size relief valve on the engine
- pump plungers complete with packing and ground bushes
- rod heads without valves
- rod liners with extension pieces
- rods without rings
- rod with crosshead and guide shoe
- rod bolts, one set for guide shoe bolts
- connecting rod
- connecting rings, 6 scrape rings
- exhaust gas meters
- inlet valves and springs H.P. fuel pumps
- exhaust valves and springs H.P. fuel pumps
- valve chests complete with atomisers, springs, etc.
- inlet valves
- inlet butts for fuel valves
- bolts for fuel valves
- atomisers
- inlet pieces for atomisers
- rods and pins fuel valve levers
- cams
- complete set of valve levers and rollers for one cylinder
- complete valve units for supercharge system
- complete sets of thrustblock pads, 12 pads
- inlet valves for injection air bottles
- injection pipe and one inblast air pipe of each size complete
- complete set of rubber rings for one meter
- " " copper
- complete set of spare studs, nuts and bolts for two main cylinders
- connecting water pump rod with bucket and nuts
- complete set of cooling water pump valves, seating and guards
- inlet pump plunger with neck and gland bushes
- inlet cooling pump plunger with neck and gland bushes
- inlet of bilge pump valves and seatings complete
- inlet of piston cooling pump, valves and seatings complete
- inlet lubricator complete
- inlet of bearing brasses with bolts for rocking shaft (2 halves)
- inlet of brasses and bolts for pump levers inside
- " " " " " " outside
- inlet gear wheels for camshaft drive
- inlet rod for camshaft drive
- inlet complete sets of telescopic pipes with stuffing boxes
- inlet exhaust valves with stems
- inlet exhaust valve seatings
- inlet of teeth wheels for H.P. fuel pumps
- inlet of bevel wheels for lub. oil pump drive
- inlet of packing for L.P. compressor rod
- inlet of scraper rings for main piston rods
- inlet safety tubes for inblast line
- inlet piston rings for extension piece
- inlet eccentric sheave and rod for fuel pump
- inlet crosshead and pin for fuel pump

R COMPRESSOR

on rings for each piston  
 of crosshead pin bearings (complete) with belts  
 head pin  
 crankpin bearings (complete) with belts  
 complete set of valve seatings, guards and springs for L.P., I.P. & H.P. compressor  
 tion valves for each stage  
 ivery valves for each stage  
 nder liner for each stage  
 er stack for each stage

ating oil and piston coolers

ing stack for cooling water cooler  
 " " lubricating oil "

g Engine

e armature complete in watertight box  
 lete set of brush holders and brushes.
