while building { During erection on board vessel - - - } \_\_\_\_\_ Total No. of visits 25

Is this Boiler a duplicate of a previous case Yes If so, state Vessel's name and Report No. L.An. BLR. Rpt. No. 1

GENERAL REMARKS (State quality of workmanship, opinions as to class, &c.) The boiler, so far as stated above, has been built under Special Survey in accordance with the Rules and approved plans, and the workmanship and material is good. It has been satisfactorily tested to 380 lbs. per sq. inch by hydraulic pressure in the presence of the undersigned. It has been forwarded to Richmond, California, to be fitted on board, and when this has been done in accordance with the Rules, the vessel will be eligible, in my opinion, to receive the notation: \*LMC with date, and 220 lbs. and F. D. in the Register Book.
