

S.S. "OCEAN VANQUISHER".

In view of the later cablegram received from Naples, Mr. Harvey agrees that the requested particulars of the case should be sent without further delay.

Mr. Harvey admits that his previous assumption that Mr. MacFarlane would be dealing with the case at Palermo was due to his confusing Mr. MacFarlane, the Society's Surveyor at Marseilles, with Mr. MacDonald, the Ministry Surveyor at Palermo.

As previously stated the survey is in its preliminary stages, no work having yet been ordered.
