REC'D MAR 23 1918

ANS'D 16/3/18

22nd March 1918

The Secretary

Sir

Messrs The Northumberland L^{td}
 state that they have received a letter from J Wright &
 Co Lepton regarding the three stockless bower anchors
 on order for their ss No 248 ^{Standard B Ship} from which it appears that
 the weights of these anchors as found at the Lloyds Survey
 House Low Walker are 60.00 59.2.0 & 49.1.21
 giving a collective weight of 168.3.21

The requirements per Table 31. are 60.00 60.00 & 50.2.0
 giving a collective weight of 170.2.0

The Builders would be please to know if these
 anchors will be approved. They cannot obtain the
 certificates without accepting the anchors.

In my opinion, in view of the great difficulty in
 obtaining anchors at the present time, the approval
 of these anchors for the Figure 1 for the Standard
 Ship Type B, merits the favourable consideration of
 the Committee.
