S

Dear Sir,

With reference to your letter of the 22nd August last respecting the steamer "SILVERLAUREL", I enclose herewith a copy of a letter dated 21st instant which was addressed to the Owners in London regarding the survey position.

A copy of this letter was obviously sent to their Liverpool Office who have made comment as per copy attached.

With regard thereto, you will remember that in view of the extent of the deferred shell damages, Mr. Lockhart was unable to recommend the docking as part of the Special Survey, and I shall be glad if you will take convenient opportunity of explaining the position to the Owners' local Superintendent and let me have an assurance that he now understands the position.

I am, Dear Sir,
Yours faithfully,

Clerk to the
Classification Committee

The Secretary,
LIVERPOOL.
