

WOKINGHAM COPY.

17th August, 1944.

S. Dear Sir,

s.s. "SILVERLAUREL" - Liv. Rpt. No.121421

With reference to the above mentioned report I shall be obliged if you will inform the Surveyors it is not understood why the examination of the bottom and rudder and the testing of the A.P. tank have not been recommended as an advancement of the Special Survey, which would leave outstanding only the examination of the windlass and testing of the F.P. tanks and D.B. tanks, except in way of deep tanks.

Perhaps you will furnish me with the Surveyors' comments in due course.

I am, Dear Sir,
Yours faithfully,

Clerk to the
Classification Committee.

The Secretary,
LIVERPOOL.

W261-0068
