

Messrs. J.L. Thompson & Sons' Yard No.588.

Messrs. Sunderland Forge & Eng. Co. Ltd.

Electrical Installation.

The Firm state that at the request of the Owners and as in previous instances, they propose to fit as far as possible American type fuses, lampholders, etc., in order to facilitate replacements in American ports.

In these circumstances the proposal merits approval.

IT IS SUBMITTED the Firm be informed no exception will be taken in this instance to the use of American type cartridge fuses on the main switchboard, and non-renewable screw type standard American pattern plug fuses on the 110 volt lighting distribution boards, provided the remaining requirements of the Rules for Electrical Equipment be complied with.

Advise Sunderland Surveyors.
