SOUTHWICK,

SUNDERLAND.

22nd. September 1939.

Messrs. Lloyds' Register of Shipping,
55, Fawcett Street,
SUNDERLAND.

Dear Sirs,

S.S.No. 243

It is proposed to make the second deck forward of amidships without normal sheer, the deck at centre being kept parallel to the Keel and the camber of deck remaining. We now enclose outline plan in duplicate of part profile and deck plan, showing proposed amendments to scantlings due to this alteration. We would greatly appreciate your early approval of this.

We also enclose plan in duplicate of proposed deck girders and H.E.Beams etc., and will be pleased to have your approval at your earliest convenience. With reference to the number of W.T.Bulkheads and their proposed position mentioned in your letter of the 1st August, it has been decided, to enable this vessel to be registered as having seven W.T.Bulkheads, to make the boiler room Bulkhead a W.T.Bulkhead for the full width of the ship, thereby increasing the distance between the B.R.Bulkhead and the W.T.Reserve Bunker Bulkhead from 13-1½ to 26' 3".

Yours faithfully,

WM.PICKERSGILL & SONS LIMITED.

Encl.
