Shipbuilders: Messrs. Wm. PICKERSE GILL & SONS

Yard No. 243

Makers: Messrs. GEORGE CLARK (1938) LTD.

CONTRACT  
Boiler No. 1218

It is submitted that the plan of <sup>main</sup> cylindrical multitubular  
boilers merits approval for a working pressure of 220 lbs  
per sq. inch, provided the boiler be constructed under the  
usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding  
the tensile strength of the ~~shell plates, butt straps, girders and~~  
viz:- 29-33 tons/sq"

Return plans 2.
