

S.S. "SELLINGE".

The Ministry of War Transport state this vessel has been at Taranto since November last awaiting a drydock. The damage sustained after striking a mine, referred to in the Malta report dated September last, still remains to be dealt with and as there are little labour facilities for repairs at Taranto it is probable that the vessel will be brought home for overhaul.

It may be added that the vessel is requisitioned under a T.99 Charter and the Ministry suggest that the matter of the outstanding survey and Load Line requirements might, if desired, be brought to the notice of the Owners.
