

F. Schichau G.m.b.H.,  
Danzig.

(Translation).

9th May, 1939.

Messrs. Lloyd's Register of Shipping,  
LONDON E.C.3.

Dear Sirs,

Yd.No.1424 "TAMESIA" .Electrical equipment.

We enclose herewith, in triplicate, the following  
drawings : E 21275, "Main switch plan"  
E 20701<sup>1</sup>/<sub>1</sub> "Main Switch Board"  
E 21251/1)  
E 21251/2) "Wiring" Plans".

The wiring of the electrical equipment is to be carried ou in principle in the same manner as for the "TATRA" and "TIRRANNA". We wish to draw your attention to the fact that in this case too the main swithh board, will be made, at the request of the Owners, by an iron frame covered with tin plate, and that the automatic switches, lever switches and fuses will be so arranged that no live parts can be reached from the front under any circumstances. The execution of these switch boards has already been approved by you for the "TARIFA", "TATRA" and "TIRRANNA". We shall be glad if you will kindly check the cable sections, the wiring etc. and return us , duly approved, together with any observations, an uncoloured copy of each drawing, as soon as possible.

As the vessel is to be launched on the 13th instanth, and we wish to begin to install the main cable at the end of this month, an early reply would ablige.

Yours faithfully,

Signatures.
