

Messrs. Lloyd's Register of Shipping,

LONDON E.C.3.

Dear Sirs,

Yd.No.1424 "OSLO IV".

The transversal girder shown in red on drawing H.202 - Structural Plan - approved by you, to be fitted between frames 67 and 68 in way of the tweendeck hinders considerably the fitting of the main engines and auxiliary boiler.

Instead of this transversal girder/we, therefore, ^{in way of the tweendeck} propose to fit a large bracket as per drawing H.334 a, enclosed herewith in triplicate, by means of which a good connection with the bulkhead wall on frame 65 is ensured.

We shall be glad if you will let us have your remarks on our proposal as soon as possible.

Yours faithfully,

Signatures.
