

Messrs. F. Schichau's Yard No. 1357.

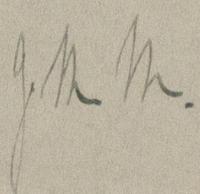

Plan of aft framing submitted, in triplicate, by
the Builders direct.

It is submitted that provided the arrangements be
carried out as shewn and amended on the plan and to the
satisfaction of the Society's Surveyors, the same will merit
approval.

The Builders should be informed with regard to the
extent of the intercostal girder at the after end that it is
desirable that this girder should be carried as far aft as
practicable. The extent of this girder cannot ^{well} be determined
from the plan, and it is a matter that should be arranged with
the local Surveyor.
