

Messrs. Fredriksstad Mek.Verksteds Yard No. 287.  
-----

It is submitted the Oslo Surveyors be informed that the thickness of the permanent coamings, which it is noted in this case are to be from 2000 to 3000 m/m in height and exceeding 430 m/m in diameter, should not be less than 10 m/m for the full height. The coamings should also be stayed or bracketed, as required by Section 26, Paragraph 2 of the Rules, and a sketch showing the proposed arrangement should be submitted for approval.

   
22. 2. 38.
