

Messrs. Fredriksstad mek. Verksted's No. 287.

-----  
Plan of shell expansion submitted, in triplicate, by the Oslo Surveyors.

On the plan of midship section all connections were shewn <sup>to be</sup> riveted. The Builders now propose to electrically weld all the butts of the keel and bottom plating within the double bottom and in the peak tanks.

It is submitted the Surveyors be informed that the scantlings and arrangements as shewn and amended on the plan will be approved, provided they be carried out to their satisfaction, the Owners' consent be obtained to the electric welding of the butts, ~~and~~ the electrodes used comply with Section 4, Paragraphs 1-7 of the Rules for the Application of Electric Arc Welding to Ship Construction, and a suitable notation be made in the Register Book.
